DETAILED ACTION

Remarks

1. In response to communications files on May 21, 2007. Claims 1 and 9-11 amended per applicant's request. Therefore, claims 1-17 are presently pending in the application.

Reasons for Allowance

2. Claims 1-17 are allowed.

3. The following is a statement of reasons for the indication of allowable subject matter: the prior arts of records, neither anticipates nor renders obvious the following limitations as claimed:

As to claims 1 and 9-11 the prior art of records fail to anticipate or suggest a computer program for a multimedia processing method used in a multimedia processing apparatus that includes:

an installation space information database that stores part table list information corresponding to the installation space;

a registration control unit that controls registration of information at the multimedia information database, at the ontology information database, at the name information database, and at the installation space information database; and

an ontology generating unit that generates ontology, the ontology generating unit being configured to read the part table list information from the installation space information database

Art Unit: 2164

and to set name information based on an item to be conceptualized, the program making a computer execute:

generating a name space ontology by setting a table of mutual relationships of concept expressed between two pieces of name information which is ruled as an extensible markup language as name space in worldwide web consortium, the mutual relationships including lateral relationships and vertical relationships, wherein the name space ontology is a hierarchy of names assigned to respective elements from the installation space with the selected element having a respective name at a top level of the name space ontology; and

determining a layer depth of the name space, together with the other limitations of the independent claims.
